

Hi Blue Class

Tracy, Duygu and I are really missing you all and our little chats with your mums and dads. Duygu has been looking after her family and doing some gardening. She has been going for really long walks so that she can keep fit and healthy. She enjoys playing with her cat. We have spoken a few times. She says to do a lot of reading and don't forget to play hangman with the adults in your home.

Tracy and I speak about four times a day and even though she is just around the corner from me here in Enfield we have not been able to see each other. We were remembering our lovely day at the Cutty Sark and thinking about all the things we did together.

Tracy has been working at home and playing with her dog Jack. He loves to put his ball in her pond, dishwasher and her mop bucket. He always gets her to throw his ball. She has been taking Jack on walks. She has also been in her garden.

I am really missing my football team and watching them and our little chats about football. I am doing lots of thing at home that I love like playing the piano, my steel pan and my cello. Sometimes I sit and sing songs whilst playing my guitar. I have spent time in my garden. If you play and instrument it would be good to practice each day then when I am an old woman one day in my rocking chair I can say "I remember when I use to teach..." I have been doing school work as well.

Hope you have all been doing lots of work. I have enjoyed looking at you work and hearing you little voices it has been brightening up my days. I have attached some suggestions of things to do this week. Why don't you copy a short sentence from your reading book and practice your handwriting, remembering to always start at the top. If you usually join then do so. You can use Espresso to show you how to form you letters.

Please don't forget look at the 2dos on Purple Mash. If you go to emails you can send me a little message. Please also don't forget to do some of the activities on Abacus and look at Espresso. The on line resources on the school website are also really useful. Also don't forget to look at Grant's art challenge. Most of all get a routine and do some work every day so that you can remain a genius!

Take care of yourselves and your mums and dads!!!

Love from

Duygu, Tracy and Hazie
