

Dear Year Two,

We hope that you and all your parents are well. We adults in year two have really enjoyed speaking to you and your parents last week. We are going in to school this week so that we can get the classes and resources ready for your return next week. We are all very excited to see you again after such a long time.

I have put some pictures of the junior school so that you can see that the junior school is not so different from our school. Like us they have a library which you will be able to use. They do not have a room with computers but instead you will have computers or chrome books in your classroom to use. Your classroom will be very like your classroom now. I hope that you have had all your questions asked by your teacher this week and you will be meeting them next week so if you have thought of any other questions you can ask them then.

We are asking you to bring a bag in on your first day that you come so that we can give you all your things to take home. We will do something to say goodbye on the second day but we will let you know what we will be doing when you are back.

Take care until then,

Christine, Becca, Duygu, Tracy, Pat, Sarah and Hazel
