

Dear Green Class,

I hope you are all well and listening to your grownups.

I know it is tricky doing work at home but it can be fun too! Me and Nina have been starting our day with Joe Wicks exercise. You should have a go as well. It's challenging but you can do it!

I have been helping Nina with her school work. We have been reading a lot and doing some drawing. We also have Gary to keep us company. He seems very happy and comes out for cuddles twice a day. I went to school on Tuesday and Wednesday. The weather was lovely so we stayed outside for most of the time.

For maths, please explore some shapes finding  $\frac{1}{2}$  and  $\frac{1}{4}$  as well as finding  $\frac{1}{2}$  and  $\frac{1}{4}$  of a number. Maybe you could help this week with the cooking or baking and do some weighing of the ingredients. You could also go on a hunt and see how many object you can measure with your ruler.

It would be lovely if you could keep up with writing your journal of things you do every day. Write it down in your book and I will read all about it when you come back to school

Please also make sure you complete the sheet about carnivores, herbivores and omnivores. Also research amphibians, draw them and write some key facts.

I miss you all and will stay in touch.

Lots of love,

Natasza xxx
