

Reception Project for Half Term: "Living sculptures"

Do you recall the 'Goldilocks bear' made out of items you found in your house? (learning grid week 4, 29th April)
Well here is another way to use different things you can find in your home!

Spend 10 minutes looking around the home for about 20 objects you can use in a few sculptures.

Then spend time making each sculpture (4/5 sculptures) using various objects.

Think about shape, texture and colour. You might want to make a theme, such as 'animals', 'cars', 'light or heavy'.

Maybe you could make a different one each day. Perhaps you could make them all at once then change them on another day?

Ask your grownup if you can take a photograph of each sculpture. Keep the photos safe and we will display them when we're back in school.

Here are some ideas for you:
