

Hello to all you Rokesly children!

We are all missing you very much. Monia had a great idea to make a staff message for you. Can you read what it says?

This week I went on a long cycle ride with Bea to the Lee Valley and Tottenham Marshes. We cycled along the canal path. We were looking out for wildlife and saw plenty of ducks, geese and moorhens. Then as we came home we saw a strange bird on the roof. We think it might be a kestrel. You could look it up for us.

I hope you have been looking out for birds and animals on your walk. I put up a bird feeder so I could watch the birds come in my garden. I took a photo of a sparrow taking off. Then I found a tiny grey eggshell. I think it might mean the sparrows have a nest nearby – I hope I see get to see the chicks.

This week we are starting to plan for the day you come back to school. We don't know when that will be, yet, and we know that it will be very different. Children will have to be in small groups and you might not all be able to come to school on the same day. It will be strange, but we are very excited about seeing you all again. I will be writing to your families when we know more.

Keep up the good work. Keep on sharing your lovely work and pictures and I will make sure they go on to the website galleries for everyone to see.

Stay home, stay healthy and stay busy!

Keep in touch and I hope to see you all soon, Grant
